"City Of Hate"

(Yeah)

Are you afraid of the city you live in?

Spending days wondering who's watching?

Would you trade your neighbors and your friends for
some shade?

Thats the city we live

Thats the city we live

Its the same morning into evening

Get some drink, start you belly aching

Would you trade your neighbors and your few good
friends for some shade?

Thats the city we live in

(I'm a model citizen)

Thats the city we live in

(Set it on fire)
