"Happy face"

I try to wish you away
I'll do more than wishing someday
No no no more son of a bitch
No no no more wishing
No no no more son of a bitch
No more happyface

You and I have nothin' more to say
We'll do more than talking someday
No no no more son of a bitch
No no no more talking
No no no more son of a bitch
No more happyface

No no no more son of a bitch
No no no more talking
No no no more son of a bitch
No more happyface

If I...
could find...
the will...
to kill...

Here we go again

No no no more son of a bitch
No no no no more son of a bitch
No no no more son of a bitch
No more happy face

If I...
Could find...
the will...
to kill...
Well, I'll kill you son of a bitch!
