

## Toadies "Happy Voodoo"

Visit "[Happy Voodoo](#)" on [MotoLyrics.com](#)

Give me your hand and I will hold it forever  
On my nightstand in a box with your love letters  
I love you dear, I know we will not be parting  
I'll keep you near, scattered around my apartment

CHORUS

This isn't the same world you lived in  
And I could breathe easier once I've brought you back  
again  
You aren't the same girl you have been  
I bring you a happy voodoo

Give me your hair; just a lock will do  
An old photograph to capture the spirit of you and  
I'll keep these things wrapped up in an old cotton  
blouse  
The one you wore that summer before your love  
petered (?) out
