Deep in the water
I made my home
Followed my lover here
But she left me all alone
She don't like it, like it like I do

Why don't you come and see me
Beneath the waves
Maybe you visit
Maybe you stay
If you like it, like it like I do
Do you like it, like it like I do

Now you go to meeting
When Sunday comes
Then you come see me
We'll have some fun
Maybe you like it, like it like I do

Out in the water
Out in the sea
I'm waiting, lover
For you to come to me
You're gonna like it, like it like I do
Do you like it, like it like I do

I am hell in high water
And I never sleep
So watch your daughters
And stay out of the deep
Unless you like it, like it like I do
Do you like it, like it like I do
