You say you're never coming out
Once you get inside your daddy's house
You got nothing to cry about
So how about you just shut your pretty mouth
Your daddy lives up on the hill
Where he locks up all his pretty things
He don't know I got the key, baby
I think I'll go and have myself a peek

What your daddy done for you
He's gonna do for me too
You got no need for tears
You got no need to pout
You got nothing to cry about

The lights are off so take the key
And take a little walk with me
If you wanna have some fun
Baby show me daddy's gun

What your daddy done for you
He's gonna do for me too
And if you want some
You better get it now
You got nothing to cry about

What your daddy done for you
He's gonna do for me too
So shut your pretty mouth
And put your foot down
You got nothing to cry about

What your daddy done for you
He's gonna do for me too
I'll see you free now
Let's burn the f**ker down
You got nothing to cry about
