So what we did,  
We redefined  
The perfect function,  
To realize  
Some kind of potential

And underneath,  
Her paper dress  
She knows we're different  
Shoulders and a neck  
Shrug away this distance

Now in my home,  
Or in my car  
I can't help, but  
All my thoughts  
Eventually drift back  
To this day

Where ever we go, where ever we go,  
This ghost will follow

Where ever we go, where ever we go,  
This ghost follows!

Where ever we go, where ever we go,  
This ghost.....ayhhhh!
