Peel away your skin just a little more
You can let me in just a little more
Can you taste it, I do
When you bite down on the truth
We can peel away just a little more
Right to your sweetness
I'll cut you right down to your sweetness
I've tried so hard myself to make you love it
I know it hurts real bad to lay it open
I'll cut you right down to your sweetness
My love, my pride
I swallow you tonight
We can peel away just a little more
Right to your sweetness
Peel away, peel away
I found me a home for the sinner in me
Cut right down to the soul, to the center of you
Cut down to the soul, to the center of you
Cut down I found me a home for the sinner in me
The sinner in me
You give control, my sweetness
I drink you down, my sweetness
I'll eat you slow, my sweetness
I think I found my sweetness my sweetness
