"Stitched To My Heart"

My heart is bleeding rain drops, they're lonely rain
drops
When it used to shower all night long
And in the well they'll find my heart, that I gave to you

My heart is bleeding rain drops, they're lonely rain
drops
When it used to shower all night long
And in the well they'll find my heart, that I gave to you

I've been locked away
I'll keep it locked away
I'll keep it locked away
Where they'll find no trace
I'll keep it locked away
Where they'll find no trace
I'll keep it locked away
Where they'll find no trace

And in the well they'll find my heart, that I gave to you
And in the end they'll find her name, stitched to my
heart
