Well i heard bad news by the man in the street,  
how his shades are cool and his belts are sweet,  
ska music, reggae its the same old beat,  
but its different clothes and a new wave beat,

talk is cheap

paying his dues cause nothing is free  
and hes making a deal, thats nothing to me  
and he misses a point, that you cant see  
this is 87 not 63  
and he talked to me about the problems of the world  
they try to go to a best friends point  
talk to me about picking up the slack  
turned around and slapped me right in the back

well i heard bad news from the man in the street  
how his belts are cool and his shades are sweet  
ska music, reggae its the same old beat,  
but its different clothes on a new wave beat,  
and i heard that rap about unity  
now only words but the beards are free  
talk to me about picking up the slack  
turned around and slapped me right in the back

talk is cheap  
yeah talk is cheap  
talk is cheap
