If you had something on your mind
Well I, I didn't know
If you left something behind
Well I, I didn't know

I never knew
The places you knew
Understand this
Strange demand to
See your facing
Traces fading

If you somehow slipped behind
Well I, I didn't know
Understanding ever time I
Break the spell that
You had held for me

If you had something on your mind
Well I, I didn't know
If you left something behind
Well I, I didn't know

I never knew
The places you knew
Understand this
Strange demand to
See your facing
Traces fading
