Do I know you, we ever met
You've got a smile I could never forget
Perhaps you've mistaken me
For someone you know

What's that you say am I losin' my mind
That's just one of the things girl that I left behind
You must be talking about something
That happened a long time ago

If I forgot to remember your name and your face
Excuse me forgetting, I must have misplaced
That part of my life that left all the scars
From the back of my mind to the bottom of my heart

There's a look in your eyes, I've seen before
It's all too familiar but I can't be sure
I've got a memory somewhere
That looks alot like you

I'm still confused with these feelings inside
I wanna reach out and hold you and I wanna hide
Tell me did I really love you
Or are you someone that I never knew

If I forgot to remember your name and your face
Excuse me forgetting, I must have misplaced
That part of my life that left all the scars
From the back of my mind to the bottom of my heart

If I forgot to remember your name and your face
Excuse me forgetting, I must have misplaced
That part of my life that left all the scars
From the back of my mind to the bottom of my heart
