I can feel the chill of a cold November wind
Here in Oklahoma that means it is wintertime again
Every time I think about the rain and sleet and snow
I start dreamin' about siestas underneath this
sombrero

Baby if you're good to go we'll go down to Mexico
Get a place in Cabo, kick back in the sand
It'll be just you and me and the moonlight dancing on
the sea
To the Spanish guitar melody of a mariachi band

I got two tickets bought
There won't be no second thought
the Weather's always nice down there in paradise
We'll find that little man who owns that taco stand
oh We'll be drinkin' margaritas while we're
workin' on our tan

Baby if you're good to go we'll go down to Mexico

Get a place in Cabo, kick back in the sand
If you'll get off that telephone and put your shorts and
sandals on
Tomorrow we'll be dancing to a mariachi band

Cancun don't get me high
That's where the snow birds fly
They like to winter there
Then they come from everywhere
I'll take the Baja sun
man It ain't overrun
With all them gringos and turistas
We might be the only ones

Baby if you're good to go we'll go down to Mexico
Get a place in Cabo, kick back in the sand
If you'll get off that telephone and put your shorts and
sandals on
Tomorrow we'll be dancing to a mariachi band
