Maybe you were right
maybe i coulda changed
sittin here alone tonight
thinkin bout alota things
whats a man to say
when all the questions start
hell i know deep down inside my broken heart

(chorus)
coulda tried just a little bit harder
kissed you just a little bit sweeter
held on just a little bit longer
dug down just a little bit deeper
let the world revolve around you
and given you the stars above
I loved you just enogh to make you stay
and i lost you anyway

I hate it when it's like this
baby its like that now
nothin i can say to you
you'd even care to talk about
how you gonna dress it up
wrap it in a pretty bow
when it's gone it's gone for good
baby at least i know

(chorus)

Let the world revolve around you
and given you the stars above
I loved you just enough to make you stay and i lost you
anyway

and i lost you anyway
and i lost you anyway
and i lost you anyway
