This old heart didn't die  
It's been broke by the best  
But I made it out alive  
When you laid our love to rest

Baby, it burned, that corner got turned  
And I'm doin' well these days  
I've got some stones so, girl, bring it on  
What do you expect me to say?

Is that all you got, is that all there is?  
All you can hit me with?  
Still standin' tall after the fall  
Girl, is that all you've got to do?

Sit around  
Tryin' to bring a cloud of rain my way  
See I found out  
I can just sleep in on a stormy day

That sun's gonna shine and given the time

It'll be clear again  
Out of the hole, back in control  
And I took it square on the chin

Is that all you got, is that all there is?  
All you can hit me with?  
Still standin' tall after the fall  
Girl, is that all you've got to give?

Is that all you got, is that all there is?  
All you can hit me with?  
Still standin' tall after the fall  
Girl, is that all you've got to give?

Is that all you got?  
Is that all there is?  
Is that all you got?  
Is that all there is?
