You should see all the lights in our old neighborhood  
I never thought that little street could ever look so good  
I knew that she'd be busy, it's her favorite time of the  
year  
And I don't think she notice, I slipped off to be here

Mary, it's Christmas, and I just had to stop by  
To spend a little time with you on this special night  
God knows if she could see us now, she wouldn't  
understand  
But Mary, it's Christmas, and I just had to take that  
chance

Don't the snow sure look pretty, as the flakes are fallin'  
down  
It's a blanket from heaven coverin' the ground  
And that cold wind can cut a man clear to the bone  
I guess it's time I got up and took myself back home

Mary, it's Christmas, and I just had to stop by

To spend a little time with you on this special night  
God knows if she could see us now, she wouldn't  
understand  
But Mary, it's Christmas, and I just had to take that  
chance

Well, she's started askin' questions  
Though she's barely two  
Like, if reindeer fly to heaven  
Would Santa bring her love to you

Mary, it's Christmas, and I just had to stop by  
To spend a little time with you on this special night  
Someday we'll be together forever, but till then  
But Mary, it's Christmas, and I'll do the best I can

This cold wind can cut a man clear to the bone  
I guess it's time I got up off my knees and took myself  
back home
