We're living, We're living, We're livivng in extreme days

Coming at you like a whirl wind  
A hundred miles an hour is where we'll begin  
I spy the eye of apprehension  
Show me risk and you'll get my attention  
Come on  
Can't take it  
Bang to my bip  
I make you wanna flip  
Take my trip  
And you can bust your lip  
I never fear cause I live fearless  
Don't even think for a second you can get with this  
Come on  
I never fake it  
Come on

These are extreme,extreme days  
We're living, We're living, We're living in extreme days  
These are extreme,extreme days  
We're living, We're living, We're living in extreme days

I'm a freak from the burbs of the chocolate city  
Luther Jackson was my middle pineridge my elementary  
School of hip-hop 1979  
And Sugarhill had the skills that taught me to rhyme  
I got hip to Kiss and I tripped on Zeppelin  
So Mr. Therapist why did I go this direction  
God had a plan  
To end all my schemes  
I had a dream  
He said to be  
Extreme  
Come on(aahhh)  
Can't take it

These are extreme,extreme days  
We're living, We're living, We're living in extreme days  
These are extreme,extreme days

We're living, We're living, We're living in extreme days

Just the other day i saw a kid  
Who flipped his hat  
To the back  
And he called it a lid  
You know what else he did  
He stacked books from the floor to the ceiling  
Said something about trying to get to Heaven  
He was only eleven  
But he climbed to the top  
With outstretched arms  
And he screamed at the top of his lungs

Move out the way  
Give up the mic  
X for me is extremely Christ  
Living up in me  
Like it or not  
Put an X on my chest  
Because X marks the spot

We're living, We're living, We're living in extreme days

These are extreme,extreme days  
We're living, We're living, We're living in extreme days  
These are extreme,extreme days  
We're living, We're living, We're living in extreme days

We're living, We're living, We're living in extreme days

Cause we're living in extreme days
