Are we good? Cool

My whole life I've wondered how
Just wonderin' how I could turn around
It's over now, yea

I'ma leave my selfish melodies
Wanna be in Your beautiful symphony
It's over now

You sing to me and my heart comes to life
Beating for You every time (it's beating)
And now that I hear You, oh I love the way
Your chorus gets stuck in my mind

Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again

Like a lyric to my favorite song
You stay with me all day long
And when I reach the end
I wanna hear it again

Well Your remix is so surprising
Like raindrops when the sun is shining
It's beautiful to me

Lord You flip my words and change the tempo
And somehow You just make it simple
So beautiful to see

You sing to me and my heart comes to life
Beating for You every time (it's beating)
And now that I hear You, oh I love the way
Your chorus gets stuck in my mind

Like a lyric to my favorite song
You stick with me all day long
And when I reach the end

I wanna hear it again

Like a lyric to my favorite song
You stay with me all day long
And when I reach the end
I wanna hear it again

It's beating beating
It's beating beating

I am man in need
You are my remedy
I love the way that You sing to me, sing to me
Your soothing melodies have got me listening
I can't wait to hear You sing to me, sing to me

I am man in need
You are my remedy
I love the way that You sing to me, sing to me
Your soothing melodies my heart is listening
I can't wait to hear You sing to me, sing

Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again

Like a lyric to my favorite song
You stick with me all day long
And when I reach the end
I wanna hear it again

My favorite song
All day long
I wanna hear it again

My favorite song
All day long
I wanna hear it again
