One time  
One world  
Two times  
One love  
Three times  
Rewind  
'Cause I'm a dedicate this song to everyone of God's  
children

Come as you are  
Come just like you be  
It's the bumps and curves of our history  
But no blocks in the road that we can't traverse  
And no wounds from the past that can't be nursed

All hate gonna dissipate from our fate  
No check, together we got a checkmate  
All hate gonna dissipate and fade away  
To make room for a brand new day

We got one world 'til its time to fly  
We got so it's one love 'til we say goodbye  
We got one world its enough to share  
Til we're called home and we're caught up in the air we  
got

One world  
I'll look out for you, you look out for me  
One world  
Together we can be perfect harmony  
One world  
I'll look out for you, you look out for me  
One world  
And I'm a dedicate this song to everyone of God's  
children

One world oughta be more than enough  
And if its not, is God looking in pure disgust?  
Wondering what the dilly with the silly I see?  
When I made each of these in the image of me  
Everyday is a chance for a new stance  
Like every song is the beginning of a new dance

And everyone of us was made to reflect the light  
And glorify the most high so bright  
We got one world 'til its time to fly  
So it's one love 'til we say goodbye  
We got one world its enough to share  
Til the king calls us home and we're caught up in the air  
we got

One world  
I'll look out for you, you look out for me  
One world  
Together we can be perfect harmony  
One world  
I'll look out for you, you look out for me  
One world  
And I'm a dedicate this song to everyone of God's  
children

You can come as you are  
Love is yours  
Love is ours  
I am a witness  
sweet forgiveness  
You will shine like a star  
Burning bright where you are in our one world, one  
world  
Like a star, like a star, like a star

One World  
Like a star, Baby  
One World  
And I'm gonna dedicate this song, dedicate this song

One world  
I'll look out for you, you look out for me  
One world  
Together we can be perfect harmony  
One world  
I'll look out for you, you look out for me  
One world  
And I'm gonna dedicate this song, dedicate this song

Lets come together and love,  
Lets come together and love,  
Lets come together and love,  
Lets come together and love, come together
