### "Thankful For You"

Visit "[Thankful For You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Well I started out in a spare bedroom  
Two turntables uh and a microphone  
I was flippin' over 33's  
Workin' on rhymes and melodies  
Searching for some more of You  
(And a little less of me)

It's never been my dream  
To see my face in magazines  
It's always been about the music  
Hoping God would use it to set some people free

But I can say without a doubt  
I've never had it figured out  
Lord You've opened every door I've stepped through  
yeah  
And I've tried to keep my head about me  
I'm thankful for the friends around me  
I'm thankful for You yeah yeah yeah  
I'm thankful for You

I've been on this road  
And you come to my shows  
Sometimes just a few of y'all  
(Other times in droves)

But You've been right there to rock with us  
We come together, we lift Him up  
And seein' You there inspires me, puts a fire in me

It's never been my dream  
To read my name in magazines  
It's always been about the music  
Praying God would use it to set some people free

But I can say without a doubt  
I've never had it figured out  
Lord You've opened every door I've stepped through  
yeah  
And I've tried to keep my head about me  
So thankful for the friends around me

I'm thankful for You yeah yeah yeah  
I'm thankful for You yeah yeah yeah  
I'm thankful for You

It's such a free feeling that You got me feeling  
We're all good all good all good  
I love this free feeling that You got me feeling  
We're all good all good all good  
Said I love that free feeling that You got me feeling  
We're all good all good all good

Yeah yeah

Yeah they say You become who you hang out with  
Well I can tell you for sure  
You made me a better man

And I can say without a doubt  
I've never had it figured out  
Lord You've opened every door I've stepped through  
yeah  
And I've tried to keep my head about me  
So thankful for the friends around me  
I'm thankful for You yeah yeah yeah  
I'm thankful for You yeah yeah yeah  
I'm thankful for You

Thankful for You  
Thankful for You

That's it!
