Breathe in
Breathe out
We don't need to take this shit day, day out
We believe that we're fucking jokes living here
We believe it's a fucking chore living here
Day in, day out, it's gonna stop

Everyone can play their part
Everyone can help themselves save the world
Nobody has to take the blame
Everybody must live before they die

So cough up your own pride or get the fuck out
You can believe you're a fucking joke living here
You can believe it's a fucking joke living here
Get up or get the fuck out

Everyone has played their part
Everyone can help themselves save the world
Nobody has to take the blame
Everybody must live before they die

Feel sores from iniquities
And you will find your true call

Me, I'm me
And nobody else is you
But if we can't face the mirror of identity
What the hell is the point of living if you're dead?

You have to feel something
Feel nothing
Feel something
Feel everything

You have to fear something
Fear nothing
Fear something
FEAR NOTHING but yourself
