I am so beautiful
I am so ugly
I am so free
I am so trapped

Life is so grand
Life can seem so hard
You can decide to equal and divide
The numbers in your head all add up to something

We are so beautiful
We are so ugly
We are so free
Yet we keep ourselves trapped

Everything that you think is true
One half of you is not you
People will try to help you see
What part so deep inside is me
Deep inside is me...

Life can be so grand
You can decide to equal and divide
The numbers in your head all add up to something

I am so beautiful
I am so ugly
I am so free
I am so trapped

People can try to help you see
What part so deep inside is me
Deep inside me...
