I am the true sun above  
I am the same rising king  
Your cross is in your blood  
So you can fight beside the best...

I can see the many faces with these eyes  
They all seem like one another  
Until you find "your brother"  
Then you'll see each other  
Like you did long ago

Because

Chorus:

I am the true sun above  
I am the same rising king  
Your cross is in your blood  
So you can fight amongst the best...

The black-faced will try to lie  
Tell you that lessons are scars you must hide  
Try to hurt what you know are honest feelings  
Push it aside  
And just beat the ride  
It goes up and down  
Just know, it goes around

Chorus

Please don't try to run away from this  
Denying will only push you into the void  
Please, don't want to run away from this  
The liar will push his way into your inner void

You can never run away from this  
Denying will only start the clock at zero  
You don't want to run away from this  
The light here will fill the void inside your empty soul

Chorus

Our cross is in our blood  
It's one size fits all

Don't fall...
