If I strum chords,
Would you sing a song with me
If I leave town,
Would you leave along with me
We can fly away to outer space
We can find a way to leave this place
We don't need a map
And you can throw your phone away
We don't wanna hear the things we know their gonna
say
You don't trust yourself
But girl, trust me
Don't look in the mirror
The past, you don't wanna see

What do you say we leave for California
If we drive all night,
We can make it by the morning
And no one has to know if we decide to go
What do you say we leave for California

If we leave our friends then we can be together
We can leave this town if only for the weather
I could drive
And you could sleep
While the radio collides with the sounds of our
heartbeats

What do you say we leave for California
If we drive all night,
We can make it by the morning
And no one has to know if we decide to go

What do you say we leave for California

What do you say we leave for California
If we drive all night,
We can make it by the morning
And no one has to know if we decide to go
What do you say we leave for California

Hypnotised by the carbon monoxide

Would turning back be a good idea
Your cigarette after cigarette
Cannot help to calm your fear

Now I'm still driving
Just keep sleeping
We'll keep moving
But I'm not leaving
No Im not leaving

What do you say we leave for California
If we drive all night,
We can make it by the morning
And no one has to know if we decide to go
What do you say we leave for California

What do you say we leave for California
If we drive all night,
We can make it by the morning
And no one has to know if we decide to go
What do you say we leave for California
