Let's drop! Yeah, come on  
Shake, shake

I'll take you home if you don't leave me at the front  
door  
Your body's cold but girl we're getting so warm  
And I was thinking of ways that I could get inside  
Tonight you're falling in love, let me go now  
This feeling's tearing me up, here we go now

Now if she does it like this, will you do it like that?  
Now if she touches like this, will you touch her right  
back?  
Now if she moves like this, will you move her like that?  
Come on, shake shake, shake shake, a-shake it

Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it

Your lips tremble but your eyes are in a straight stare  
We're on the bed but your clothes are laying right there  
And I was thinking of places that I could hide  
Tonight you're falling in love, let me go now  
This feeling's tearing me up, here we go now

Now if she does it like this, will you do it like that?  
Now if she touches like this, will you touch her right  
back?

Now if she moves like this, will you move her like that?  
Come on, shake shake, shake shake, a-shake it

Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it

I saw you dancing and I couldn't get you off my mind  
I could tell that you could tell that I was taking my time  
But I was thinking of ways to get you staying the night

Your body's shaking, tell me off so I can turn off the  
lights

Now if she does it like this, will you do it like that?  
Now if she touches like this, will you touch her right  
back?  
Now if she moves like this, will you move her like that?  
Come on, shake shake, shake shake, a-shake it

Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it

Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it  
Shake shake, shake shake, a-shake it
