If I did, meant not to
If I said, thought I not
Touching hands with the whiteness of your mouth
Quiet inside, I figure this is our place to be

Tall, just like a giraffe
You have to climb to find it's head
But if there's a glitch
You're an osterich
You've got your head in the sand

Husky glow, the moon has no
Saddening retrogrey
Monkeycage, did they lit the lamp at night
All our bears, swimming in the green covine
They're not safe

Fall, like ledbetter eyes
You choose a stance to hypnotize
It is mice, you know?
It leaves them to grow
It's such a magical life

Tall just like a giraffe
You have to climb to find ts head
But if there's a glitch
You're an osterich
You've got your head in the sand

Fall, like ledbetter eyes
You choose a stance to hypnotize
It is mice, you know?
It leaves them to grow
It's such a magical life

Animals of many kinds
I'm surrounded by
Animals of many kinds
I'm surrounded by
