You drew me cartoons
So playful

You drew me cartoons
So playful
(Oh)

(But you ran away)
You drew me cartoons
So playful
(Oh)

(Memories drawn... But you ran away)
You drew me cartoons
So playful
(Oh)

(Memories drawn... But you ran away)
You drew me cartoons
So playful
(Oh)

(Memories drawn tonight... But you ran away)
You drew me cartoons
Drew me cartoons

You watch the way you're always keeping score
You keep the score
You keep it

(Abstract
While you wait for me
But you wanna get back and so lets meet here)

Put your hand in mine
We will go skating
On the thinnest ice that we can find
(Ah...)
It takes me summer to say
(Ah...)
It takes me winter in a day

Honestly see, they're like you and me
Frozen when we start
We cannot help it
Easy to destruct
Taken apart

Put your hand in mine
We will go skating
On the thinnest ice that we can find
(Ah...)

Tonight I'm watching the sky
The creatures you drew
They remain alive
(Ah...)
The cushions lying here
And what do you want?
Is this what happens to us now?

Sunk beneath the sea
That's no way to be
What came over me?
Growing old with you
This is what we do
We are leaving wounds

Sunk beneath the sea
That's no way to be
What came over me?
(Lied to you for)
Growing old with you
This is what we do
We are leaving wounds
(MacramÃ©)

I will let you know
You just say you want me too
I will say the words,
If you meant that you'd stay with me

Would you like to be a creature to us all?
(Would you like to be? Would you like to be?)
Did I ease your scar? A wound in macramÃ©
(Did I ease your scar? Did I ease your scar?)

To say words we decipher
And what's worse we're no wiser
