This can not be the endeavour of a broken heart
Miss you forever and ever if you should fall apart

Now all seem to be gone
All things that you rely on

I'd miss you forever and ever if you should fall apart
Can't stay forever together in obstructive lie

Now all seem to be gone
All things that you rely on
You can ever undo
Because you felt you "had to"

I'd miss you forever and ever if you should fall apart
Can't stay forever together in obstructive lie
I'd miss you forever and ever if you should fall apart
(Can't stay - in lie)
Can't stay forever together in obstructive lie
(Miss you - all the time)
I'd miss you forever and ever if you should fall apart
(Can't stay - in lie)
Can't stay forever together in obstructive lie
(Miss you - all the time)

Now all seem to be gone
All things that you rely on
You can ever undo
Because you felt you "had to"
