En, to.. (one, two)

From April 1st to whenever
I will love you
I know it's quite a sight
Ain't it quite a sight?
Quiet, I will love you
Quietly
All the time you'll see the sad man try
All the time you'll see the sad man cry

There is no expiration
For this admiration
I know I'm always tired
But I am not tired. Quiet!
Quiet, I will love you
I will love you quietly

All the time you'll see the sad man try
All the time you'll see the sad man cry

From what I heard, my dear
I will love you
Yeah yeah yeah...
