And they want to bring out
The someone you want to know
Beneath the snow

In winter you're an affliction
That repeatedly defeated me

I'll find you somewhere
Show you how much I care
Know that there is no
Escape from my snow brigade

Bring out the someone
You need to see
For jealousy
We all know
One day you'll be behind
Your everything
And feel the spring come
I'll find you somewhere
Show you how much I care
Know that there is no
Escape from my snow brigade

My arms retreat
I wish they were there
To hold you

I'll find you somewhere
Show you how much I care
Know that there is no
Escape from my snow brigade
