[Boulton/Gwilym/Marsh]

Same old story, only the faces change  
About a young boy, too tough to fall for love  
On the street he's in command  
He stares in fascination  
Black lace, black leather  
Such a lethal combination

[Bridge]

Bad habit, now a vice  
She's cooler than a Bud on ice  
Cruising to the backbeat  
Halfway to paradise

[Chorus]

1000 Nights (1000 nights)  
Making out like we don't care  
1000 nights (1000 nights)  
1000 nights (1000 nights)  
Like a one night love affair  
1000 nights (1000 nights)  
And the nights go on forever

He was raised tough, and tough was good enough  
He never had time to give love a fighting chance  
Too long on the borderline to protect him from  
temptation  
Black lace black leather  
Such a lethal combination

[Bridge]

[Chorus]

[Solo]

[Chorus]
