[Boulton]

Staring through the window  
Looking at another lonely day  
Oh how could I forget you  
And all those games we used to pay

[Bridge]

How many times did I say to myself  
I'd never fall in love again  
The things we say were never meant to hurt  
You're breakin' up my heart

[Chorus]

These chains of love won't set me free  
These chains of love keep holdin' me  
I stand alone in misery  
These chains of love are killin' me  
These chains of love

Tell me why you're leavin'  
And I will try to understand  
All the lying and deceivin'  
Why don't you ever show your hand

[Bridge]

[Chorus]

How many times have I loved and lost  
How many times  
How many times I've met the cost  
Oh babe met the cost

[Solo]
