[Boulton]

Something in the way you drag me down  
Started a fire then you put it out  
Like a tiger in the night you start to prey  
Hunter doesn't hunt 'til night turns to day

[Bridge]

You think you own me but that ain't true  
You wanna beat me black and blue  
I wanna bite but it's all down to you

[Chorus]

Heartbreaker leave me alone  
'Cos I'm passing you by this time (heartbreaker)  
Heartbreaker leave me alone  
'Cos there's no way you'll never be mine

Telling my friends how you kicked me out  
Lying your way all around town  
You bit me like a snake and shook me to the limit  
How was I to know there was poison in it

[Bridge]

[Chorus]

Throw me down then pick me up  
I wanna run but I can't break free  
Thought you had me but I'm too tough  
You're next kid ain't gonna be me  
No!

[Solo]

[Chorus]

Heartbreaker!
