[Boulton/Marsh]

That girl, she don't give a damn  
I try to fight it but its driving me mad  
Nothing stops her, nothing ever could  
Like a flame burning inside  
One look into her eyes, she'll burn you alive  
I can't fight it, don't know if I should

I know you run around, I know the things you say  
I feel the pain but I can't turn away  
I know its wrong but I just can't break the spell  
Cold as ice, always in control  
But you're so distant, always far away  
Can't believe it, thought I knew so well

[Chorus]

Someone to love (someone to love)  
Gonna make you feel alright  
Someone to love (someone to love)  
Gonna make you feel alright  
Someone to love

Red hot, burning fire, gonna bring my love to you  
I can feel your blood run hot  
Gonna bring you, to your knees

[Solo]

[Repeat Chorus]
