[Boulton/Marsh]

Listen to the sounds, they fill my head  
The room goes round and round  
Calm before the storm, I feel so alone  
And I know that something's going down

[Bridge]

Down in the streets, the spotlight's shining bright  
Neon lights, crazy nights, race the shadows to the  
dawn

[Chorus]

Sunrise In Tokyo [x4]  
Tokyo!, Tokyo!

Can't shake it loose, I was born to the night  
Can't wait for the light with you  
Candle in the wind, burn it down  
And wait for the rising sun

[Bridge]

[Chorus]

[Solo]

Race through the night, see the madman approach  
Look in his eyes chills your bones  
Times close at hand, are you waiting to die?  
But the face in the window is mine  
Oh no

[Solo]

[Chorus]
