First time kisses, will come true.. made for me, me and you..

Fly me to the moon, take me to the rainbow of dreams..
Make your wish on wings, and pray that it comes true..
And take me higher to the rainbow..
Higher higher higher higher higher..
Higher higher higher higher higher..

Fly me to the moon, take me to the rainbow of dreams..
Make your wish on wings, and pray that it comes true..
And take me higher to the rainbow..
Higher higher higher higher higher..
Higher higher higher higher higher..

Love me like you did last night, love me in your dreams tonight..
Hold me close or hold me tight, feel your body close to mine..
Love me like you did last night, love me in your dreams tonight..
Hold me close or hold me tight, feel your body close to mine..
Close to mine, close to mine, close to mine, close to mine..

Fly me to the moon, take me to the rainbow of dreams..
Make your wish on wings, and pray that it comes true..
And take me higher to the rainbow..
Higher higher higher higher higher..
Higher higher higher higher higher..
