Let he, he without sin, he without sin
Cast the first stone
Hey you, you with your halo, you with your halo
Why don't you cast the first stone?

& if you never ever do no wrong
You must be an angel, you don't belong
Hey you, you better Sunday, you better Monday
Cast the first stone

& if you never ever do no wrong
You must be an angel, you don't belong
Hey you, you without sin, you without sin
Cast the first stone

(whistling, fading out)
