When it's over and the smoke clears, I'll be standin'
When the last card's been dealt from this deck
When the last shot's been fired through the haze of all
this mess
I'll be ready for what I've come to expect

So deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out) deal it out

When it's over and the smoke clears, I'll be standin'
When the last word, last steel turn to dust
When the last move's been made in this game of life
and death
I'll remember who I know I can trust

So deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out) deal it out

When it's over and the smoke clears, I'll be standin'
When the last card's been dealt from this deck
When the last shot's been fired through the haze of all
this mess
I'll be ready for what I've come to expect

So deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out)
Deal it out (deal it out) deal it out (deal it out) deal it out
