(Western cheer)

Comes a time when Everyman must make a stand
he feels it in his heart & in his hands
he knows that every move may be his last
But he don't care because he can't live in his past
if I do, if I do, if I do
I'm gonna spend my life with you

There's a place where Everyman has got to go
& he's driven by the flames within his soul
Do you wonder if you'll stumble on the keys?
But Everyman is just like you, is just like me
if I do, if I do, if I do
I'm gonna spend my life with you

(instrumental)

if I do, if I do
