Tom Fogerty
"Faces, Places, People"

There are faces I have known, places I have gone
Loves & little books I've thrown away
There are times that I remember, times that I forget
Faces, places, people passing by

There are names that run together, games go on
forever
Games, is someone really keepin' score?
There are times that I remember, times that I forget
Names & games & scorecards passing by

There are rules that seem so ancient, schools of
mindless patience
Teachers only looking for their pay
There are times that I remember, times that I forget
Rules & schools & rulers passing by

(instrumental)
(repeat verse 3)
(instrumental, fading out)
