Fate left me high in the mornin'
Fate left me high in the sun
Fate left me high in the mornin'
Fate left a sign, more than one

All of my life I've been lookin'
For some little clue why I'm here
Now that the wizard is showin'
I want to see when it's near
Fate

(instrumental)

All in the nights & the doctor
Call in the sea from the shore
Call up your friends & your neighbors
Tell them to look 'bout the core

(repeat verse 1)
Fate

(instrumental, with backup singing title, fading out)
