CHORUS:

Goodbye, media man  
Goodbye, media man  
Goodbye, media, goodbye, media man

You spread your paranoia all over this land  
Creating situations you don't understand  
If we could get next to you & turn you around  
The peace that we all could share would get of the  
ground

(Chorus)

Believin' in your power, it's what you can do  
You gotta help change the world, there's nothin' to lose  
Come on & do the people's will, your masters are hate  
You gotta help us bring the changes to the masters of  
our fate

(Chorus)

(Instrumental)

You'd better  
(Repeat & fade):  
Stop flashin' pictures of the people  
Stop flashin' pictures of the power
