Have you heard (have you heard) of the joyful  
resurrection?  
A way to bring your mind back from the dead  
Have you heard (have you heard) of the joyful pain  
direction?  
Change of scene is gonna change your head

So you think (so you think) the music got me haunted  
Let me tell you, people, that ain't right  
So some 'portant man has sent us all to Delphi  
& the rockin' voice to carry in the night

(instrumental)

It was late, it was late & the day was long in comin'  
Mystery ship would not stop in L.A.  
Oh the velvet visions' fantasy was growin'  
& the underground revival set the stage

Came the dawn (came the dawn) & the sun was shinin'  
brightly  
& the Poorboys from the country came to play  
The best they had, no money  
& the eagle of the darkness passed their way

(repeat verse 1)

(repeat & fade):  
I said joy- (I said joy-) I said joy- (I said joy-) ful  
resurrection
