Love lives, love gives
Money buys it on the funky side of town
Some walk, some talk
Money buys it on the funky side of town
You get the urge to buy it
Could there be love inside it?
Watch out, for she'll get to you 'cause...

Love lives, love gives
Money buys it on the funky side of town
Some walk, some talk
Some do it on the funky side of town
Just when you think you know it
That's when you can't control it
Watch out, for she'll get to you 'cause...

Long green leadin' me
Rollin' in & out from every side of town
Cold cash breaks the stash
Comin' down from every part of town

(instrumental)

Love lives, love gives
Money buys it on the funky side of town
Some walk, some talk
Money buys it on the funky side of town
Love lives, love gives
Money buys it on the funky side of town
