Real Real Gone

I'm real real gone

I got hit by a bow & arrow
It got me down to the very narrow
You're a friend of mine & ooo I'm real real gone

Oh the radio, music comin' in here, the Sam Coe's
voice
Well I know I don't have any choice
Just the way it is & I'm real, I'm real, real real gone

I can't stand up by myself
Don't you know babe, I need your help, hey
You're a friend of mine & I'm real, I'm real real gone

(repeat verse 1)

Some people say that you can make it on your own
They say you can make it if you try
But I know better now, you can't stand up alone
Baby baby, that is why I'm real real gone

Well I'm dancin', dancin' till my, till my my body's
soakin' wet
Till I'm completely filled with sweat, hey
Once I start it I'm just, I'm just real, real real gone

(repeat verse 1)

Well the music's playin' on the radio
Oh but I can't dance & stare in space
When my feet get tipsy, touch your face
You're a friend of mine & ooo I'm real real gone

Help me stand up, help me stand up all by myself
You're a friend of mine & ooo I'm real real gone
