She La La La

The wrong kind of groove & it just wouldn't work that way

The wrong kind of move & I knew it wouldn't pay
It was the right thing to prove, but it just couldn't be that way

Well let me, let me tell you that I really really wish it could

It was the right time of day, but it just wasn't meant to be

The right thing to say, but it just wasn't meant for me
It was a real scene today & the folks just let it be

Well let me, let me tell you that I really really wish I could

CHORUS:

She la la la la la, she la la la la la

She la la la la la, she la la la la la

She la la la la la, she la la la la la

She la la la la la, she la la la la la

It was a hope in my mind that pushed me on my feet

The faith on my mind that pushed me on my feet

It was a step that I take; say, can you take it too?

Well let me, let me tell you that I really really hope you do too

(chorus)

(repeat verse 3)

(repeat & fade):

She la la la la la, she la la la la la

She la la la la la la la la la la, she la la la la la
