"What Did I Know"

Visit "[What Did I Know](#)" on MotoLyrics.com

You said you felt like a fool just catering
& you said you seem like a noose 'round my neck
What did I know? What did I know?
What did I know about you?

You said you felt like a cloud on a rainy day
& you knew the storm of your life was comin' on
What did I know? What did I know?
What did I know about you?

(instrumental)

You felt you needed to get back on your own
I say I need you with me; come on home
What did I know? What did I know?
What did I know about you?

(instrumental, fading out)
