The nights grow cold, my search for gold  
Is leading nowhere  
Whichever lonely road I take  
It seems to go where  
It's a fight to survive just until tomorrow  
How can I display what I know I'm worthy of  
When they turn me away

The doors are closed to such as i  
A boy from nowhere  
But not to those who merely buy the right  
To go where  
They'll be met with respect, not humiliation  
A man's place on earth  
I have come to realize  
Is decided by birth

So what's the future  
No matter where I go I will still belong...  
In andalusia  
Where we don't know where the next penny's coming  
from  
Something's wrong

I'm bound to spain, I won't remain  
A boy from nowhere

There has to be a place for me  
And I must go where

I don't fantasize unlike a million others  
Not a man alive  
Had to beg or steal or fight more than me to survive

So what's the future  
No matter where I go I will still belong...  
In andalusia  
Where good honest men grow weak and the rich grow  
strong  
Something's wrong

Another dawn, another boy

A boy from nowhere  
My destiny will guarantee  
I'll only go where

It's a fight to survive just until tomorrow  
One more mouth to feed  
And the way things are round here,  
That's the last thing they need
