"Feels Like Music"

Day trippin', so reapin'
Girl in a rock and roll band
Lights out, so loud
Better than you ever had

Feels like music
Pumpin' trough your veins
Feels like music
Coming back again

Shake down, take down
Knocking to a different beat
One touch, head rush
Drop it one more time for me

Feels like music
Like you ain't never heard
Feels like music
All around the world

Well, If you're wired by the sound
And you want to sing it out, sing it!
Yes, If you're wired by the sound
And you want to shake it down, shake it!

Feels like music
Like you ain't never heard
Feels like music
All around the world

Midnight, so fine
I love the way you twist and turn
Don't fight, hold tight
Baby, let it burn, let it burn

Feels like music
Pumpin' trough your veins
Feels like music
And coming back again

Day trippin', so reapin'
Girl in a rock and roll band
Lights out, so loud
Better than you ever had

Feels like music
Pumpin' trough your veins
Feels like music
Coming back again

Feels like music
Like you ain't never heard
Feels like music
All around the world

Shake down, take down
Knocking to a different beat
One touch and head rush
Drop it one more time for me

Feels like music
Pumpin' trough your veins
Feels like music
And coming back again

Feels like music
Like you ain't never heard
Feels like music
All around the world
