A thousand thundering thrills

await me

Facing insurmountable odds

gratefully

The Female of the species is more

deadly than the male.

Shock shock horror horror

Shock shock horror

I'll shout myself hoarse for your

supernatural force.

The female of the species is more

deadly than the male.

Oh she deals in witchcraft

Once kiss and I'm zapped

Oh how can heaven hold a place for me

When a girl like you has cast a spell

on me

Oh how can heaven hold a place for me

When a girl like you has cast a spell

on me.

Frankenstein and Dracula have

nothing on you

Jekyll and Hyde join the back of

the queue

The female of the species is more

deadly than the male.

She wants to conquer the

world completely

But she captures me

discreetly

The female of the species is more

deadly than the male.

She deals in witchcraft

One kiss and I'm zapped

Oh how can heaven hold a place

for me

when a girl like you has cast her spell

on me

Oh how can heaven hold a place

for me

When a girl like you has cast her spell

on me.....

cha cha cha !!
