[Grimm, Verse 1]

They tortured all my ancestors  
Hung them by the neck  
They sit back and they laugh at us  
Race with no respect  
We helped build this whole country  
Brick by brick  
They don't treat us like human beings  
Animals that's sick  
It's not water that's making mud  
The flowers are crying  
The soil saturates with our blood  
Brother and sisters are dying  
Forty acres and a mule  
Land was promised  
Forty lashes whipped so cruel  
Kunta Kinte is astonished  
For so long we slaved this earth  
But when time to get what's deserved  
You didn't read the fine print  
They said forget what we said before  
Nothing is written in stone  
We don't need your kind no more  
This is not your home

[Chorus]

Go back to Africa  
They say go back to Africa  
They say go back to Africa  
They say go back to Africa  
They say go back to Africa  
They say go back to Africa  
They say go back to Africa  
They say go back to Africa

[Verse 2]

It's hard to understand the men  
What make 'em tick?  
Who sin because they hate my skin  
To be the burden we were picked  
A white rose is what is chose

Law of the land  
A red one is still a rose  
The creator made them both  
In our yards they burn a cross  
Live at the barbecue  
Saying, nigga you get lost  
Next time it'll be you  
Pack your stuff, be out of here  
We don't want you here building  
Where you go we just don't care  
Just take them nappy headed children  
Matter of fact we take that back  
Our words we devour  
You should go where it's all black  
Cause here you have no power  
You don't deserve privileges  
We don't think that's you're a man  
You're nothing but savages  
How can I make you understand?  
Nigga!

[Chorus x2]

[Voice sample from a Godzilla movie]  
Well they really made a mess of this place
